## Instant Mobile Printing

Take a photo of your treasured moments and print them out whenever and wherever.

## Easy Connection

You can print anywhere and any time via a Bluetooth connection or NFC tagging.

Bluetooth®

NFC

Just tag your smart phone (only for Android)  
\*NFC: Near Field Communication

Made for iPhone

Compatibility with Android™ devices

Compatibility with Windows Phone 8

Compatible with Android ver. 2.2 (Froyo) / iOS ver. 5.1 / Windows Phone 8 and above

## Stylish Design

The Pocket Photo's light, slim and compact design is easy to carry and grab your friends' attention.

## Compact Size

LG Pocket photo is as slim and compact as your smartphone, so it fits in your hand or inside a bag when not in use.

## Smart Editing and Sharing

Add a QR code easily with the LG Pocket photo app to link to your SNS.

## LG Pocket photo App

The LG Pocket photo app offers various editing functions. With this app, you can decorate your photos and add text, a date or even a QR code.

## Linking to SNS through QR code

A printed QR code can give more information, such as your phone number, but it also links to your social network site so that you can share your happy moments with your friends.

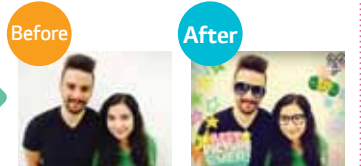

**Tip!!**

Take & play together with Cymera.

"Cymera" App

Easy photo edits via face mapping technology.
